

**Garmin**

All prices are for factory new equipment installed.

## 430W/530W upgrade program Garmin GTN-6XX and GTN-7XX systems

Remove and trade-in existing GNS-530W and upgrade to standard GTN-750. Interface 750 to aircraft systems in same manor as removed 530W.

From \$7495.00 installed.

\* GTN-750 will require an additional 1.5" of panel mounting space over the GNS-530W. Pricing quoted here assumes the existing mounting area has at least 1.5" of available space. If not, a remote audio panel or transponder may be required. See below for remote transponder and audio panel options.

\* Quoted price assumes existing GNS-530W installation conforms with the Garmin GNS-530W installation manual

\* GNS-530W must be a WAAS 14/28 volt unit in good working order and in good cosmetic condition.

**GTN650 Upgrade Sale!**

Remove and trade-in existing GNS-430W and upgrade to standard GTN-650 or GTN-750.

Upgrade GNS-430W to GTN-650 from **\$4795.00** installed.

-or-

Upgrade from GNS-430W to GTN-750 from \$9895.00 (will require 3.38" of additional mounting space).

\* Quoted price assumes existing GNS-430W installation conforms with the Garmin GNS-430W installation manual

\* GNS-430W must be a WAAS 14/28 volt unit in good working order and in good cosmetic condition.

Save instrument panel space with these Garmin remote systems.

Garmin GMA-35 remote audio panel. This units will interface to the GTN-7XX systems for remote control. GMA-35 from \$3995 installed.

Garmin GTX-33ES and GTX-32 remote transponders. These units will interface to either the 6XX or 7XX systems for remote control. GTX-33ES from \$6200 installed. GTX-32 from \$3543 installed.
